VILLA HILLS – The start of this new 2015-2016 school year at Villa Madonna Montessori brought us a revamped music/lunchroom. With help from our parent volunteers, the walls and doors were freshly painted in cheery hues of blue, white and green. There is a fun new blue and green area rug that has given the children a cozy space to gather for stories with the visiting librarian, creative dance class or for gathering to create and do all the interesting works in the room.

The space was opened up and renewed especially to provide a bigger work area for the children's creative dance and movement classes with Miss Jeanne. Now more than ever, the kids love getting all their wiggles, giggles and silly moves out! It's also proving to be a great space for learning and fun in Miss Guiliana's Spanish class.

This spruced up area also provides a great open area for the recently implemented before and after school care program, which serves 10+ children who come daily for more learning and fun at Villa Madonna outside of the regular school hours.

All are welcome to come observe the children daily from 9-11 a.m. Come see the wonders of Villa Madonna Montessori minds at work!
